

ZAC HOGAN

JUNIOR WEB DEVELOPER

Web development is a fascinating process!

The combination of technical problem solving, watching complex interactive systems at work, and providing real-world experiences to users is incredibly fulfilling.

BEM

Related Skills

- 2D Design
- 3D Design
- Video and Animation
- System development,
troubleshooting,
administration

PROJECTS

WWW.ZACHOGAN.COM PORTFOLIO WEBSITE

A little portfolio site about me. Largely designed and developed from scratch, and with the help of a couple of external libraries.

Source code: github.com/zacvhogan/zacvhogan.github.io

EASYSROLLTO.JS JS LIBRARY

A tiny JS library that I developed to quickly implement smooth scrolling to page sections driven by page links and buttons.

Source code: github.com/zacvhogan/easyScrollTo

WORK

MAKERSPACE AUCKLAND CENTRAL LIBRARY

From 2018 - present I've been the Makerspace Librarian at Auckland Central City Library.

I'm responsible for the varied and unusual technologies in the Makerspace, as well as the services, processes, and design of the space.

My work has included selecting, configuring, and maintaining software for custom public-use computers, large panel array digital displays, and a range of Raspberry Pi micro-computers for a variety of use-cases.

EDUCATION

BACHELOR OF VISUAL ARTS

UNIVERSITY OF AUCKLAND

Focussed on video game design and development, illustration, and concept art.
